SEPI MAX ZEN™ (Polyacrylate Crosspolymer-6) Powder polymer with a **maximum resistance to electrolytes**, with a high associative behavior (stable from pH 2 to 8). t's now possible to formulate with any kind of active ingredients, achieving ZEN.

MONTANO V™ 202 & MONTANO V™ 68 MB provide a smooth texture, which is perfectly adapted for a mask.

MONTANO V™ 202 (Arachidyl Alcohol - Behenyl Alcohol - Arachidyl Glucoside)**MONTANO V™ 68 MB** (Cetearyl Alcohol - Cetearyl Glucoside)Glucolipid emulsifiers derived from vegetable origin. Promoters of liquid crystals they **maintained skin moisturization over time.**

VOLUFORM™ fills wrinkles & revamps the volume of the face lost by skin aging. (*Palmitoyl Isoleucine*)

Thanks to **VOLUFIRMING technology**, it is able to fill, and to give curves to the thinned & sagging cutaneous zones by **targeting the cells responsible for plumping & firming.** The **volume of the face** marked by aging is **remodelled, the wrinkles formed are filled & erased** (clinical efficacy validated on senior citizens).
